Hippo Hopper self-dumping Crane hoppers (6500 capacity)

The Hippo Hopper Self-Dumping Crane Hopper is designed for use in manufacturing plants, mills and heavy construction sites for fast, safe and economical handling of bulk material and scrap. The hopper can be maneuvered in to place with over head crane and easily dumped by pulling down on lever for a full 90 degree dump. The smooth bucket interior allows for the clean, complete dumping of materials. After dumping the crane hopper easily returns it to its upright latched position.

Water tight welded container boxes

MODEL	SIZE	L	W	H	WGT.
HH16CD	1 CU YD	53"	36"	30"	780
