### Hippo Hopper Skeleton Hopper self-Dumping hopper (6500LB capacity)

The Skeleton Hopper is designed for use in Plate & Sheet metal processing centers, such as LASER / PLASMA / TURRET PUNCH CENTER for fast, safe and economical handling scrap skeletons. The weight of the loaded material automatically tips the Skeleton Hopper's box forward when the dump handle is pulled down, releasing the load.

- Welded formed steel top rails add extra strength to this open design
- Big and Easy pull-down handle release Safe & Easy
- Laser cut "Rockin'Roller" design Zero maintenance

At **Hippo Hopper** we have developed many specialty hoppers to meet the needs of our clients. This product review covers our Skeleton Hopper.

Base 50"W X 54"L  
Fork Entry 40"W X 2.75"H
